

GONDWANA GEOLOGICAL MAGAZINE

Vol. 20 (2), DECEMBER, 2005

CONTENTS

Petrofacies, Provenance and Diagenesis of Patherwa Formation Sandstones, Semri Group, Son Valley, India	A. H. M. Ahmad, S. Rais, A. F. Khan and Hamid Zafar	61-72
Distribution of Heavy Minerals along the Beach from False Devi Point to Kottapatnam, Andhra Pradesh Coast	P. V. Nageswara Rao, R. K. Suryam and V. Ranga Rao	73-78
Active Marine Transgression and Destruction of Port-City of Dwaraka, Gujarat, India in 2nd Millenium B.C.: A Geological Evaluation	V. S. Krishnaswamy	79-88
Mineralogy and Trace Element Geochemistry of Inorganic matter (LTA) from Kothagudem Coal Deposit, Godavari Valley, AP.	M. Jagannadha Rao, P. L. V. Prasada Rao, N. Avataram, J. Venkata Ramana and M. Chandra Rao	89-98
Gas Adsorption Potential and Petrographic Studies of Coal Seams of Sawang Colliery, Jharkhand	Anil M. Pophare and Abhay M. Varade	99-104
Barite-Filled Septarian Nodules From Panna Shale Formation of the Rewa Group Sohagighat, Madhya Pradesh, India.	D. P. Dubey, R. K. Shrivastava, R. N. Tiwari and Umesh Dwivedi	105-108
Fluvial Facies Models of Triassic Gondwana rocks of Damodar, Son and Satpura basins of Eastern and Central India	R. C. Tewari	109-118
On First Indian record of fossil calcareous alga <i>Subterraniophyllum</i> from Late Lutetian of western Kutch and its biostratigraphical and paleobiogeographical assessment	P. Kundal and Sumedh K. Humane	119-124
Activation of Narmada Rift during Early Cretaceous: Evidence from Soft Sediment Deformation Structures	Bhawanisingh G. Desai and Satish J. Patel	125-130
Stromatolites and Depositional Environments of the Bhandar Limestone, Rewa Area, Madhya Pradesh	R. N. Tiwari and D. P. Dubey	131-135
A Micro Level Approach for Integrated Watershed Investigation Development Planning and Artificial Recharge Site Selection for Ground Water in Malni River Watershed	R. K. Trivedi and R. M. Singh	137-146
Fenitization of the Rocks of Bakhatgarh – Phulmal area, Deccan Igneous Province, Jhabua District, Madhya Pradesh: A Preliminary Investigation.	K. R. Randive	147-154
Report on workshop		155
