

GONDWANA GEOLOGICAL MAGAZINE

Volume-6 - December 1993

CONTENTS

Anupama Wakode, Sabiha Vali and A.N. Deshmukh 1-15 Fluorine contents of drinking water and foodstuffs grown in an endemic Fluorosis area, Dongargaon, Dist, Chandrapur, Maharashtra

A.N. Deshmukh, Rekha D. Gajbhiye and Jaya 16-26 8.Ganveer.

Hydrochemical impact of natural recharge on 1:)I, groundwater quality of Fluorosis endemic Dongargaon 11"1")

Village, tehsil. Warora, Dist Chandrapur, Maharashtra.

8.8. Gayakwad and G.V. Patil 1-27-41 on two dicotyledonous woods from the Intertrappean I'ikHii

bed of Ambabagholi, District Betul, Madhya Pradesh.

Abir Gupta 42-53 Sedimentary Environment of a part of Barakar

Formation around Sewai -Jora Kadtoli -Janiamora area,

Ramgarh Coalfield, Bihar.

L.G. Gwalni 54-57

314, sept. 1993 it,

3 papers read at Birbal Sahani Centenary National

Symposium on Gondwana of India, Jan., 1993

R.S. Tiwari 58-74

A treatise on the potential of Palynology in high calibre"

Correlation and dating of coal bearing Gondwana

Sequence of India.

C.L. Tikku, D.C. Srivastava, R. Sharma, R.P. Sharma, 75-107 Minaxi Pal, V.

Venkatesh

Palaeoenvironmental analysis and source rock potential

Lower Gondwana sediments, Peninsular India.

A.K. Sharma, S.T. Tatwadi, A.K. Chattopadhyaya 108-123 Geology and quality

assessment of coal resources of

Surakachhar and Balgi mine areas, Korba coalfield,

Madhya Pradesh.
