

GONDWANA GEOLOGICAL MAGAZINE
Advances In Precambrian Of Central India

Special Volume 7, October 2003

CONTENTS

Introduction

Abhinaba Roy and D. M. Mohabey

I] Crustal Evolution and Structure

Evolution of Dharwar Craton (Keynote address)

D. Mukhopadhyay and R. Srinivasan

A Plate Tectonic Model for Proterozoic Crustal Evolution of Central Indian Tectonic Zone

S. K. Acharyya

Evolutionary History of Central Indian Shield Re-examined by an Geophysical Study

L. K. Das, B. N. P. Agrwal, A. K. Das, D. C. Naskar,

K. K. Roy, K. Chowdhury, and R. K. Mazumder

Re-interpretation of bouguer Gravity Map of Precambrian Shield of Rajasthan, Gujarat and Western Madhya Pradesh: Implications on Tectono-Metamorphic Crustal Evolution of Western and Central India

C. Srikarni

Tectonometamorphic Evolution of Central Indian Terrain

D. B. Yedekar, N. Karmalkar

N. J. Pawar and S. C. Jain

Petrotectonic Study and Evaluation of Bilaspur-Raigarh Belt, Chhattisgarh

Anindya Bhattacharya and Gargi Bhattacharya

II] Stratigraphy

Deformation Pattern of Bastar Craton Adjoining Eastern Ghats Mobile Belt, NW Orissa

T.K. Biswal, Suspa Sinha, Arpita Mandal, Harish Ahuja and Milan Kanti Das

Structural-Stratigraphic Relations in Precambrian Rocks of Sausar Belt, Central India

S. Mohanty

A Reinterpretation of Geology of Ramakona –Sausar Mogra Area of Sausar fold Belt in Madhya Pradesh

A.S. Khan, Mrinal Kanti Mukherjee and R. L. Sarkar

New insights on Stratigraphy and Volcanic History of Dongargarh Belt, Central India

S. Sensarama and D. Mukhopadhyay

Geology and Geochemistry of Precambrian Rocks around Ratanpur, Bilaspur District, Chhattisgarh

N. K. Sahu, K. Patel and I. D. Ashiya
